“ I really cant believe your gone from us but I know your still with us. You impacted lives like no one else ever could I know this for a fact cause you did that for me and our son Connor. Every day I fell more in love with you, you showed me again what it is to love support and have a family. I will fna hold the memories we had in our time together everyday and in everyway. You were the life saver I needed when I needed it the most and I will never forget that first moment I met you. Together from that point on we agreed that we would prove our doubters wrong or the ones that didnt believe in us. I know for an a fact that you are in heaven now with our loved ones thats gone on before and your showing them what the mermaid you are can do. The little mermaid in you showed love compassion and support in many many different ways with those that you were around. I think of the first Christmas we had together when you told me to come and join the family I was so scared and nervous but the whole time you held my hand and said "its gonna be alright Daddy" and sure enough it was that and more. Then I think of the day that you and I exchanged our vows. I still everytime I walk onto the porch see us both standing there you as always were so breathtaking. And the tears that day flowed but hey we did what we set out to do and that was have our own family and prove our doubters wrong. I know I used to say ty for all that you have done for me and you would say that I didnt have to thank you for anything cause you did it cause you love and care for me. I want to ty now so that I can maybe hear that once more cause Im so lost without you. I know the days coming not now but someday that again we can be together and then I will once again have my beautiful little princess merkitty wife angeleyes back in my arms. So in the mean time you do those laps in that heavenly ocean so you can be there to catch me when I arrive and not let me drown ever again. I will be here on earth missing and loving you with everything that I was, that I am, or that I ever will be. Rest easy my love and know that theres lots of people that miss you and love you especially the family, me and Connor. #teamlittlebig2 #FNA #anf #Hallfamily3 #gonebutnotforgotten #willcontinuetoprovethe doubters wrongly

“ My heart is saddened by the loss of such a sweet soul. Her family was her entire world. From morning coffee and wrestling conversations with her dad, to thrift store finds with her mom. She was so proud of Samantha and how smart and accomplished she was. Being grateful to Hollie for sharing her daughters and how proud she was of the mom Hollie was. Being a proud aunt to 3 beautiful nieces brought her so much joy and happiness. The love for all her fur babies, each and every one. I never had the opportunity to know Mikey and Connor. But, I know they were her world. They gave her a love she waited a lifetime for. Mandy was my cousin. I remember the summer trips to beach, Christmas Eve with all the family, backyard fun at Grandma's house. Mandy was was always encouraging and kind. Proud of every one around her. Even though she had health issues and struggles of her own she would do her best to show everyone love and cheer. Wishing comfort and strength in the coming days. ".....though the mermaid is asleep eternally her magic lives on...."

“ Mandy I can remember watching you as a baby when your dad and mom lived with my mom and dad and some of us kids you were a happy baby and you grew up to be a happy woman. You watched my kids for me so I could work. You also watched my grandson Cooper. I always knew that my kids was safe when you were watching them because you were a loving kind person and I knew you would take care of them. You faced a lot of Obstacles in your life but you never gave up you just pushed ahead. I'm glad that you met your husband and got married and you finally had a son I know you was a good wife and a wonderful mother. I know someday we will see each other again until then fly high sweet Mandy!!!
