“ Judy, we worked side by side at GSA, FSS for many years. You always found a way to get things done, and done properly. We've kept in touch over the years. You always asked about Denise, our daughters and then our grandkids. Until we meet again, my friend.

“ So, you are really gone, my friend.  
Swiftly, with so many plans left behind.  
As you move toward a brighter light,  
Ours is dimmed by your sudden flight.

*Morris says your intelligence always led you to the inside ways of things, and, generous with your time and talents, you shared this to help others in your place of work.*

*Family was important to you, and we got to know your family through your stories. Your family. Our family. On your visits you were part of our family Easter egg hunts... Thanksgiving. Whenever work brought you our way you would be with family.*

*You embraced our daughter, and always took her seriously. She loved it when you would come to town, especially the diner dinners. Each of us could order whatever we liked, and we were always regaled with stories about your pets. I've always told you if there is a next life, I want to come back as your pet.*

*One of our trips was not driven by work. We three drove west and met up with you. We turned north on our way to see Niagra Falls from both the American and the Canadian sides. I remember the climb so that we could stand behind the falling water!*

*In you we saw courage, tenacity, kindness, generosity, caring for others, responsibility, honesty, curiosity, a sense of humor and adventure.*

*You lived a life, my friend, and love flowed through it all.*

*We love you and miss you. Morris and Anna*

“ *Judy was wonderful. I miss her already, although I was horrible at being in touch: we exchanged news and greetings over my parents, and I was happy that they had the good fortune and Providence to have her in their lives. Attached is a picture of my little girl who is named Judith Margarete!!!!*
